PASTELLI

4 GENERATIONS  
SINCE 1929

## A FAMILY BUSINESS

In 1929, the Pamich family opened up a tailor's shop in Trieste, that shortly became a small industry. In the 1978 the company was converted in Pastelli where its first medical collection was brought out. It was a line of healthcare clothing that was completely innovative: extremely high quality, original and elegant garments with an attention to detail that offered comfort and high performance. This line was originally directed at the Dental sector, but it was subsequently expanded in order to fulfill the medical and aesthetic sectors needs, with the result that the Pastelli brand has become a well-known name all around the world.

The route from tailor's shop to full-scale company has never compromised the hand-made quality of our clothing; it has only led us to become even better at our job, a fact that is confirmed by our many imitators.

Product certification under  
the strictest UNI ISO norms

Expert manufacturing that conforms to the most recent European norms regarding quality and safety, along with the most important type of certification by international quality control organizations.

## SUSTAINABILITY: AN INDISPENSABLE VALUE

We would not have grown and developed without one important value: RESPECT.

Respect for people and for the environment. With the most scrupulous conformity to Italian and International laws, we produce using exclusively eco-sustainable procedures: we do not use noxious secondary materials and colouring that can be harmful to human health or the environment, we undergo to the severest standards for water and emission disposal and optimize energetic consumption while also respecting in-force norms of safety and comfort in the workplace.

## MANUFACTURING

Every product is original to Pastelli.

Models, colours, stitching, quality control, nothing is left to chance. This is how a garment high-end tailoring gets made, and each single piece is entirely made in our premise.

## PEOPLE

Most of the individuals responsible for production Pastelli's items have been with the company for an average of twenty years; the level of expertise acquired is therefore very high, as is the guarantee that it will be transferred to younger generations.

## NO COMPROMISE

The certification of 100% made in Italy production must comply with essential requirements such as the completely Italian manufacture, or compliance with working tradition of our country characterizing the Italian craftsmanship (know-how) in keeping with the Italian Law 166 of 2009.

But it is not just a matter of laws, because when we talk about made in Italy we talk about originality and people.

A network of men and women who put together their expertise at the customer's service.

The group of people working with us is our true answer to those who ask the meaning of Made in Italy.

We are not asking you to trust only our words, but we ask you to verify it concretely, coming to visit us for fully understand how is possible in a high technological era to work together as a family.

ENTERELY  
MADE IN ITALY WITH  
THE UPMOST CARE

A garment carrying the Pastelli name represents the best of Made in Italy: each working phase is carried out and managed in Italy directly by the Company. We take part in creating fabrics according to our technical specifications, then, cutting and final details to match our designs.

OUR COTTONS AND ARTICLES UNDERGO STRESS  
TESTS THAT GRANTS 1,500 WASHES TO 60°

## FABRICS

All Pastelli fabrics are Made in Italy according to our specifications, in order to offer maximum comfort and safety to the skin.

Our own fabrics are:

- NATURAL, in the best selections of cotton and linen;
- PRESTIGIOUS, for their emphasis on attractiveness, wearability, resistance and suppleness;
- HYPOALLERGENIC, not containing any substances that are harmful to health; respectful of the environment, made from non-polluting “eco-label” procedures, in conformity with the strictest international norms;
- ALMOST INDESTRUCTIBLE
- INNOVATIVE like the PET selection that comes from recycled plastic bottles.
- TECNOLOGICAL like the anti-viral trilaminated of the Surgical Line

## CREATIVITY

Our aim is to make sure each garment fit perfectly in size, personality and style. We offer a wide selection of styles from very classic lines to more innovative ones that can be personalized with unique details.

Each garment is designed to follow movements closely during the entire working day to offer maximum comfort: only one company with an in-depth knowledge of each medical sector can guarantee all this. We can always suggest the best solutions for our customers' needs, in term of sizes and also budget.
